OUR PURPOSE

**FOR THE
MOUNTAINS**

PRODUCTS

We build for the mountains – all seasons, all terrains. Our purpose and know-how drive innovation, and our innovation drives market solutions and performance.

PLAYGROUNDS

Rossignol is from the mountains. It's where we live, where we work, where we play. The mountain gives us inspiration, and is why we rise.

PLANET

Our obligation is to preserve the integrity of the mountains and in turn, the ecosystem of our planet, for generations to come.

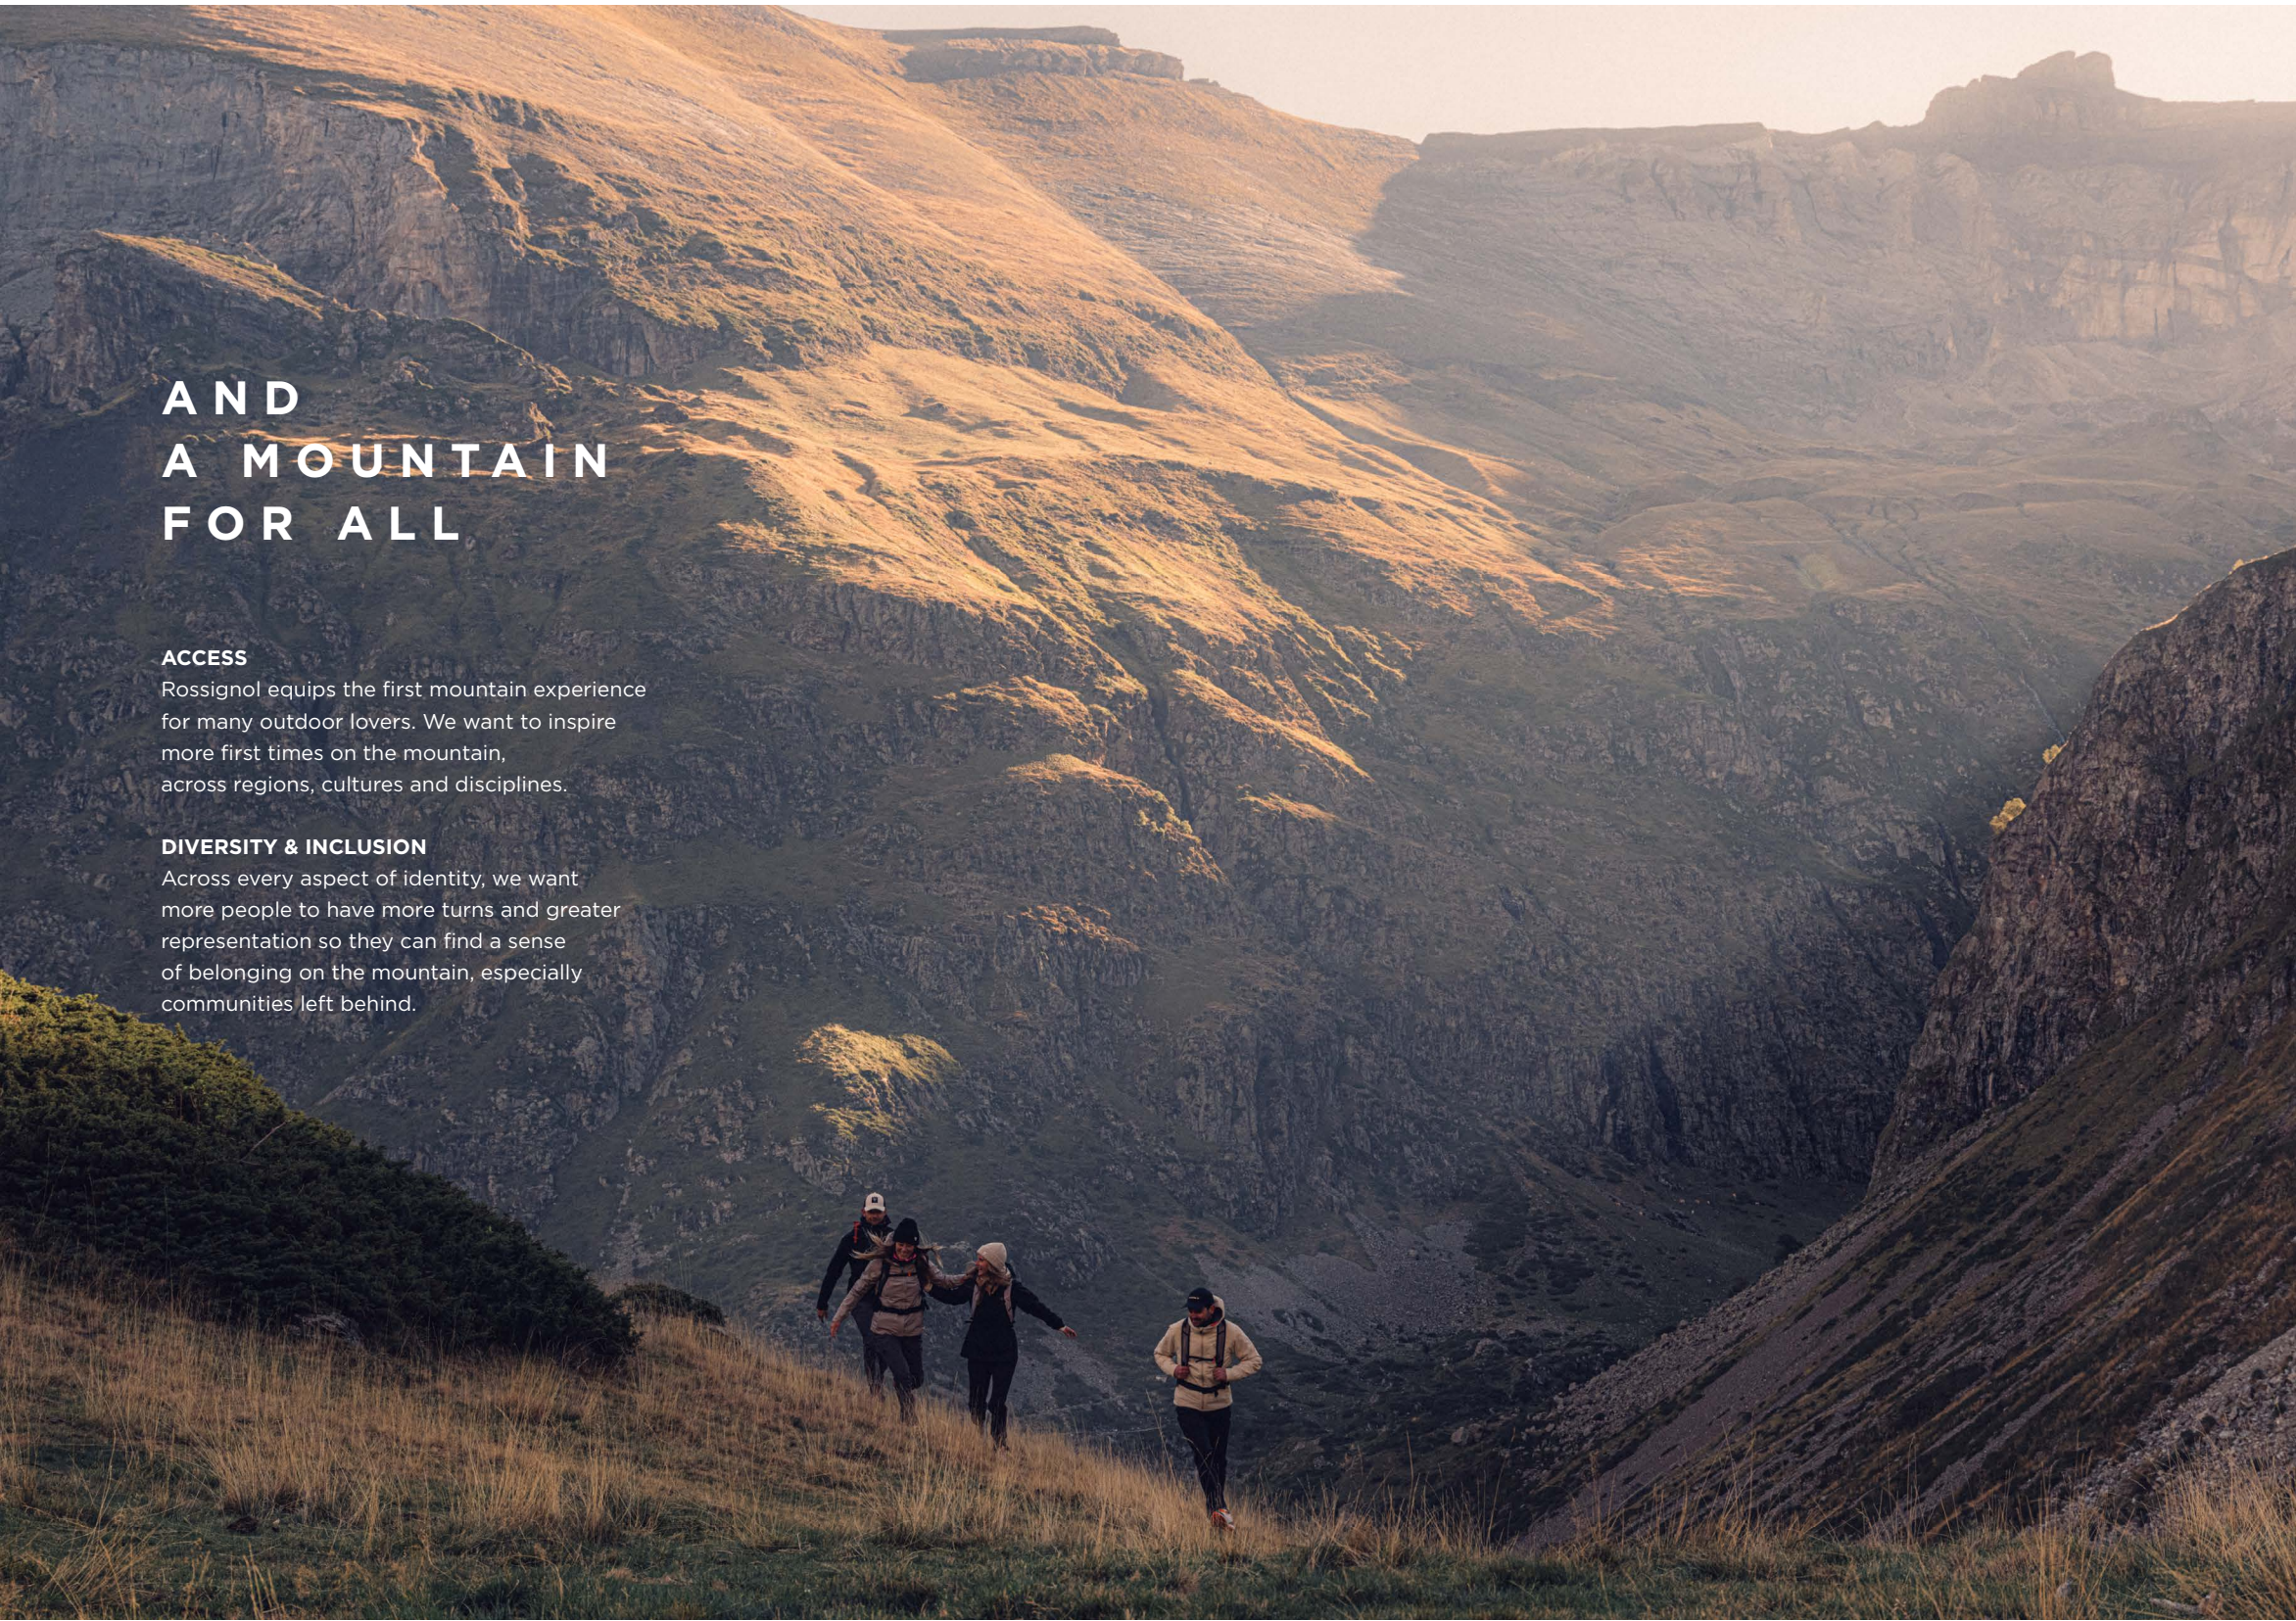

**AND
A MOUNTAIN
FOR ALL**

ACCESS

Rossignol equips the first mountain experience for many outdoor lovers. We want to inspire more first times on the mountain, across regions, cultures and disciplines.

DIVERSITY & INCLUSION

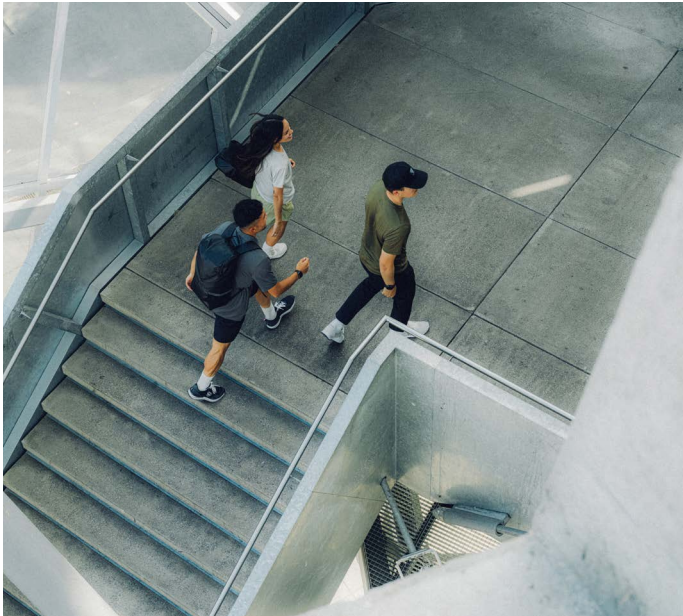

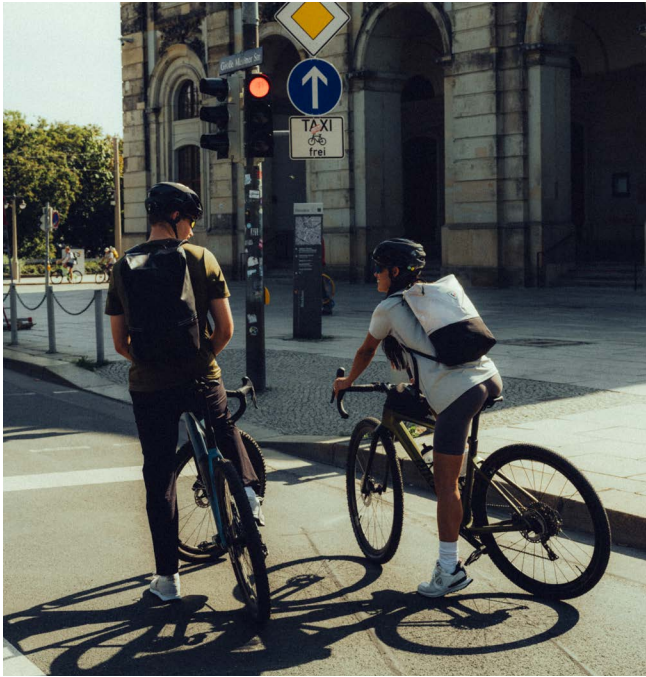

Across every aspect of identity, we want more people to have more turns and greater representation so they can find a sense of belonging on the mountain, especially communities left behind.

FOUR SEASONS, ONE BRAND

Summer is a season of renewal, when sunlight floods down and life springs back to the hillsides. At Rossignol, this transition is part of the continuum of mountain living we celebrate every day. Winter's melt reveals the ribbons of earth we'll walk, run, hike, and bike all summer long. That's why, as a global leader in winter sports, we've expanded to offer a full range of products for every season—and every side of the mountain.

Whether you're strutting down the street, springing into your stride, or snapping into a berm, our products are crafted with the same style, technical excellence, and expertise that's made us the world benchmark in winter-sports equipment for over a century. All of it grounded in principles of sustainability that have become part of our DNA. We're here to enable human-powered movement and respect for the landscape with each step. Come run and hike with us.

FROM LIFESTYLE WEAR TO TECHNICAL APPAREL, MOUNTAIN BIKES TO RUNNING SHOES, **OUR COLLECTION IS BORN FROM THE SAME PASSION AND EXPERTISE THAT HAVE DEFINED OUR LEGACY IN SNOWSPORTS.**

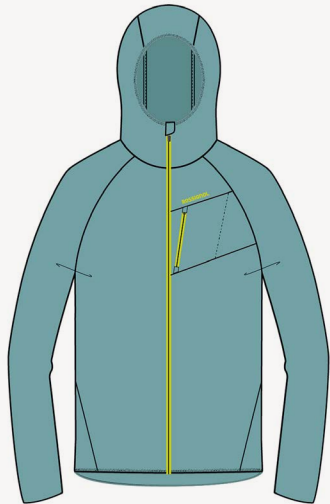

TRAIL RUNNING

KEY STORY

At Rossignol, we are passionate mountain people, hellbent on performance and transfixed by human potential. We're driven by the innate urge to go faster and farther; committed to developing technical solutions that **open the mountains** and outdoors to everyone, from active outdoor enthusiasts to the most committed athletes. It's only natural that we'd extend our Spring-Summer '25 offer to include the purest form of mountain sport there is: Trail Running.

KEY PRODUCT

SIDELHORN PKB JKT
RLNMJ78-73M

AUDIENCE

Intermediate and confirmed trail runners and hikers looking for an ultra-light and easy to pack windproof jacket.

TECHNOLOGIES

New fabric: Ultra-light Ripstop – 100% Nylon – 42gsm
Waterproofness/breathability: PFC-free water-repellent treatment / New coating technology provides 15K breathability thanks to eco-friendly water-based components. It has a silky handfeel and elastic properties.

FEATURES

Packable in its own chest pocket.
Fixed hood. Elasticated cuffs and bottom.
Zipped chest pocket.

CONSUMER BENEFITS

Incredible lightness and soft handfeel.
High level of windproofness.

DESIGN

Minimalist and clean design with new and fresh nature-inspired colors.

Now with extensive testing in the rearview, we are excited to introduce our new collection of **high-performance** trail run outfits. Developed for reaching goals both big and small, for casual and committed runners to endorphin addicts alike, we're confident they will propel you across whatever "finish line" is in your sights.

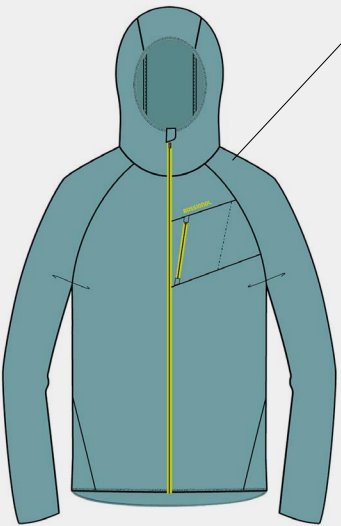

So let's lace up and go. The next era of Rossignol is here.

OUTDOOR

KEY STORY

At Rossignol, our hiking collection is designed with versatility in mind, offering high-mountain performance and all-day comfort from summits to lakeside strolls. We make our gear to transition seamlessly between settings. With ultralight, waterproof jackets, mixed-fabric t-shirts,

thoughtfully crafted mid-layers and fitted pants, you can go anywhere. You can also be sure you'll get UV protection, antibacterial fabrics that stretch, and a focus on sustainability. Style meets conscience in a collection designed to bring every mountain-goer together.

OPSIDE

KEY PRODUCT - THE OPSIDE FAMILY

Even in summer, cold days on the mountain or in the city call for versatile layers like the Opside Jackets. Between a hoodie, without sleeves or a warm version, choose the one you like the best. You can layer it under a shell to hold in the heat on the mountain, or wear it solo during

cold mornings. No matter how you enjoy cool weather, breathable synthetic and recycled insulation offers warmth without bulk and helps regulate your temperature as you warm up. Stretch fabric and preshaped sleeves support natural movement.

AUDIENCE

Active people looking for a versatile and trendy layer for all their outdoor sports.

TECHNICITIES

Fabric : Light Woven Stretch 4 Way / 94% Nylon - 6% Elastane
Insulation: Breathable Primaloft® Black insulation keeps you warm even in wet conditions and features 100% post-consumer recycled insulation made from plastic bottles. GRS Certified (Global Recycled Standard).

FEATURES

PFC-Free Water-Repellent treatment.
Fixed hood (for hoodie versions).
Zippered pockets.

CONSUMER BENEFITS

Warmth. Softness. Lighness. Comfort.

DESIGN

A flattering, tailored cut. A minimalistic style.

NEW TECHNOLOGIES

NEW

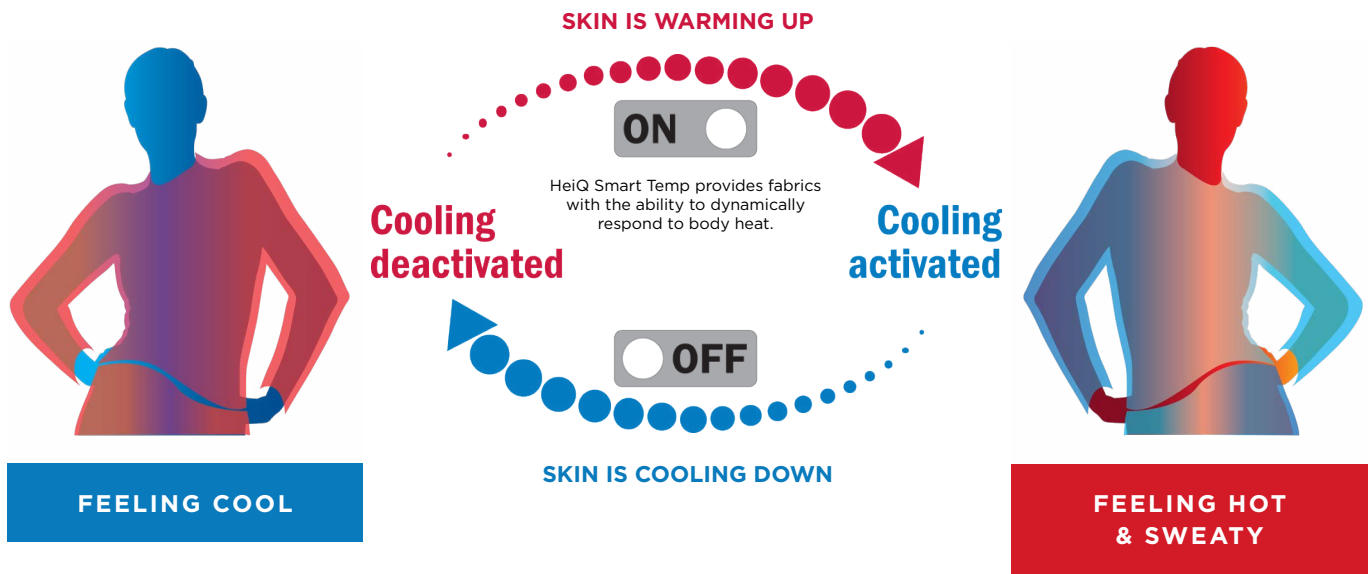

A NEW PARTNERSHIP : HEIQ

HeiQ is a leader in textile and materials innovation creating some of the most effective, durable and high-performance technologies on the market today. Discover their 3 technologies we use in our products:

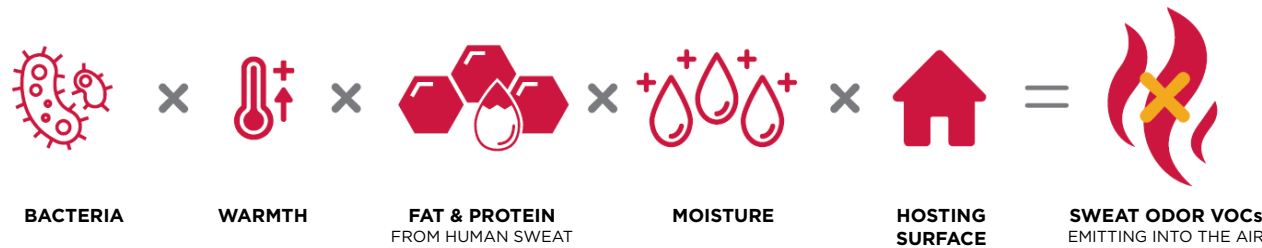

• HEIQ SMART TEMP

HeiQ Smart Temp is an innovative thermoregulation technology that provides fabrics with the ability to dynamically respond to body heat. It gives to your clothes the ability to interact with your level of heat and sweat and helps you cool down when you need and slows down heat loss once your cooling is complete. The technology uses a hydro-functional polymer and is Bluesign approved & OEKO-TEX suited.

• HEIQ FRESH

HeiQ Fresh is a family of sustainable odor control textile technologies with bio-based ingredients. HeiQ Fresh tackles the real problem of smells on textiles effectively by absorbing VOC (Volatile Organic Compound or the “smelly molecules”). The technology uses a bio-based Amino Sugar polymer to neutralize smelly molecules and is Bluesign approved & OEKO-TEX suited. It also regenerates in every wash.

• HEIQ COOL

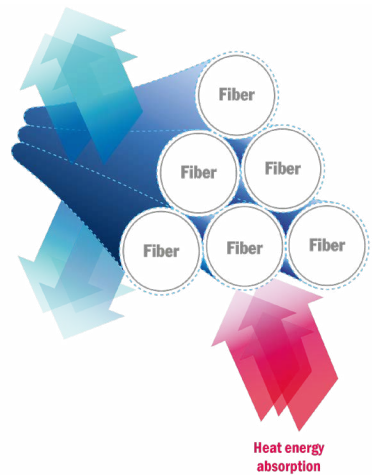

Starts cool, stays cool.

HeiQ Cool is the world's first textile technology to deliver both instant cooling and continuous evaporative cooling for optimal wellbeing day and night. It cools before the first sign of sweat, delays the build-up of heat and continuously regulates the temperature. It has a revolutionary dual action : instant and continuous cooling (up to 3°C/5,4°F). It contains > 50% of bio-based content and is OEKO-TEX suited.

DUAL MODE OF ACTION

Starts cool : Cooling starts when the body is hot. The biobased vegetable oil-derived thermo-functional polymer absorbs heat energy, giving an instant cooling sensation.

Stays cools : If the body continues to heat up, perspiration is generated and the patented hydro-functional polymer transports moisture away together with the heat, creating a continuous cooling effect that stops once cooling is complete.

EXISTING TECHNOLOGIES

INSULATION

PRIMALOFT®

The first alternative to down, the synthetic insulation PrimaLoft® shows surprising functionalities in wet and cold environments. Its water-repellent treatment can keep you warm even wet. Packable, the padding is very compact and flexible.

GLOBAL RECYCLED STANDARD (GRS)

Applies only to PRIMALOFT. GRS is an international, voluntary, full product standard sets requirements for third-party certification of recycled content.

WATERPROOFNESS & BREATHABILITY

15K BREATHABILITY COATING

New water-based and eco-friendly coating applied to fine polyester and nylon bases with outstanding features. It features 15K breathability and a superior skin touch. It modulates with accuracy the porosity, the pores size and the distribution site which leads to an optimal vapour permeability.

15K/15K WATERPROOFNESS/BREATHABILITY

Some of our products are equipped with a 15,000 mm membrane to guarantee waterproofness.

15,000

PFC-FREE DURABLE WATER REPELLENT TREATMENT

It allows water to drip along the clothing without entering inside. This version does not use perfluorinated compounds/chemicals

FULLY SEAMS

All the seams or only the critical ones depending the products are taped in order to create an impassible barrier to rain and snow.

FULLY SEAMS

OTHERS

STRETCHABILITY

Our stretch fabrics can adapt to every movement constraints

4 WAY STRETCH

UV-PROTECTION

Textile UV rays' protection refers to the ability of clothing to block harmful ultraviolet (UV) radiation from the sun.

PACKABLE

Packs down small to fit into its own pocket or an included pouch for convenient storage on the go.

WINDPROOF

Blocks the wind.

WINDPROOF

PRIMALOFT®

ROSSIGNOL x PRIMALOFT®: TOWARDS 100% RECYCLED INSULATION

The mountains, Rossignol's playing field since its beginnings, are now more than ever exposed to climate change. We have a special responsibility in all matters concerning nature and mountain's protection. That's why we joined the Fashion Pact, signed the United Nations Charter: Fashion Industry Charter for Climate Action. We also launched at Group level, in the

beginning of 2020, our new Respect program. Then, one concrete way to meet our commitments was to move on with PrimaLoft® as our only branded synthetic and recycled insulation across the new lines.

OUR COMMITMENT TO POST-CONSUMER RECYCLED INSULATION

PrimaLoft® is committed to using performance to drive their sustainability efforts by pushing the limits of material science. Since 2015, PrimaLoft has saved 430 million plastic bottles from landfills and 37% of CO2 emission compared to a normal production of virgin polyester.

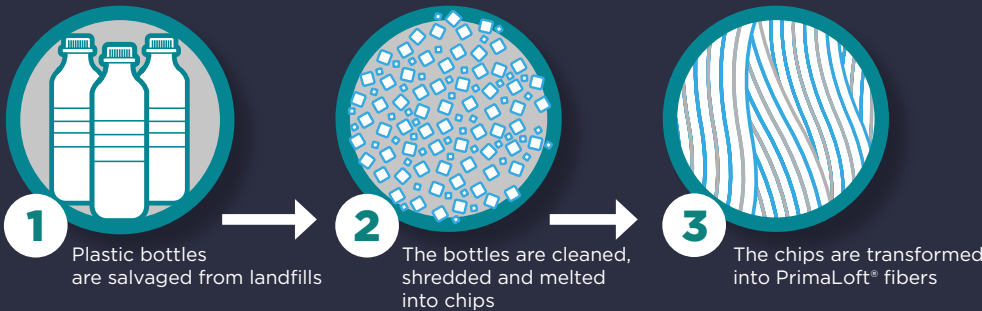

IS IT CERTIFIED?

Our three types of recycled insulation are certified by the Global Recycled Standard (GRS). The GRS is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content. It applies to the full supply chain and addresses traceability, environmental principles, social requirements and labelling.

HOW IT WORKS?

DISCOVER THE BENEFITS OF THE INSULATION:

PRIMALOFT® BLACK INSULATION 100% RECYCLED.

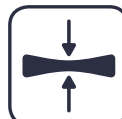

GRS certified - 100% PCR (Post-Consumer Recycled)
Lightweight in nature and designed with packability in mind, PrimaLoft® Black Insulation is the peace-of-mind solution for performance, comfort and environmental responsibility. It was designed using entirely post-consumer recycled materials to create a high performing, eco-friendly insulation. Finer-than-cashmere fibers create millions of air-trapping pockets that keep you warm when the temperatures drop.
